ACADEMIA.EDU
Other Education
http://academia.edu
In addition to finding great talent for our tight-knit team, we value fostering employee growth. Our 34-person team values curiosity, initiative, teamwork, and we are passionate about building great products. We have an employee-focused benefits program that includes top-notch health, dental, and vision insurance, a generous time off policy (21 days paid vacation, 10 federal holidays, and unrestricted sick-leave), stock options, catered lunch, a stocked kitchen, and a book stipend. We’re located in beautiful downtown San Francisco.

ACTIVISION
Internet & Software
https://www.activision.com/home
Headquartered in Santa Monica, CA, Activision operates at the intersection of technology, entertainment, esports, and consumer products. Activision is more than just the leading developer and publisher of video games, we are the creators of some of the world’s biggest, most ground-breaking titles in the industry. Our portfolio includes Call of Duty®, Crash Bandicoot™, Spyro™, and Destiny.

ACUMEN, LLC
Government - Local, State & Federal
www.acumenllc.com
Acumen, LLC, provides government agencies with high-quality, impartial research and analytical tools to inform decision-making. The activities that we perform reflect the general principle that providers, policy makers, and public citizens should have the best available evidence upon which to base their choices.

THE AEROSPACE CORPORATION
Aerospace
www.aerospace.org
The Aerospace Corporation is an Equal Opportunity/Affirmative Action employer. We believe that a diverse workforce creates an environment in which unique ideas are developed and differing perspectives are valued, producing superior customer solutions. All qualified applicants will receive consideration for employment and will not be discriminated against on the basis of race, gender, gender identity or expression, color, religion, national origin, sexual orientation, protected veteran status, or disability status.

AEYE, INC.
Automotive
www.aeye.ai
AEye is a robotic perception pioneer and creator of iDAR™, a new form of intelligent data collection that acts as the eyes and visual cortex of autonomous vehicles. Since its demonstration of its solid state LiDAR scanner in 2013, AEye has pioneered breakthroughs in intelligent sensing. The company is based in the San Francisco Bay Area, and backed by world-renowned investors including Kleiner Perkins Caufield & Byers, Airbus Ventures, and Intel Capital.

AIRPR
Internet & Software
http://airpr.com
AirPR is a PRTech company that provides analytics, insights, and measurement solutions for the evolving PR industry. The company currently serves Fortune 500 and fast-growing technology companies seeking to understand PR’s impact on business objectives. AirPR is also the leading industry educator and technology solution focused on increasing overall PR performance. AirPR’s unique approach to solving PR problems through applying “big data” has garnered media attention from CNBC, TechCrunch, Forbes, Mashable and more.

AKUNA CAPITAL
Investment / Portfolio Management
http://akunacapital.com
Akuna Capital is a young and booming trading
firm with a strong focus on cutting-edge technology, data driven decisions, and automation. Our core competency is providing liquidity as an options market-maker—meaning we provide competitive quotes that we are willing to both buy and sell. To do this successfully we design and implement our own low latency technologies, trading strategies, and mathematical models.

ALICE TECHNOLOGIES
Internet & Software
http://alicetechnologies.com
ALICE is an intelligent software to help plan and schedule construction projects faster and cheaper by automating and optimizing crucial processes.

ALTaira ENGINEERING, INC.
Internet & Software
www.altair.com
Altair’s corporate culture thrives on seeking out business and technology firsts to radically change the way organizations design products and make decisions. We are focused on the development and broad application of simulation technology to synthesize and optimize designs, processes, and decisions for our clients’ improved business performance.

APEEL SCIENCES
Other Industries
http://apeelsciences.com
Apeel Sciences creates products from natural plant extracts that allow growers to reduce reliance on pesticides, increase produce quality, and provide superior shelf life. Our innovative technologies protect crops and help to significantly reduce spoilage, which in turn reduces water use, lowers energy costs, and helps preserve natural ecosystems. Using agricultural byproducts—parts of plants that are usually discarded—Apeel creates products that fortify the surfaces of fresh fruits and vegetables, forming an ultra-thin barrier that shields produce from both biotic and abiotic stressors.

APPLIED MINDS, LLC
Other Industries
www.appliedminds.com
Founded in 2000, Applied Minds draws on the talents of nearly 150 employees and a network of subject matter experts to innovate by melding art, design, science, and engineering.

APTIV
Automotive
www.aptiv.com
Aptiv is a global technology company that is transforming the future of mobility with safe, green, and connected solutions for a diverse array of global customers. At Aptiv, we’re delivering the software capabilities, advanced computing platforms, and networking architecture that makes mobility work. Aptiv will usher in the next generation of active safety, autonomous vehicles, smart cities, and connectivity.

ARETÉ ASSOCIATES
Defense
www.arete.com
Areté Associates, an employee-owned company, is an advanced science and engineering company that provides innovative solutions to the most challenging technical problems faced by the United States Defense and Intelligence agencies.

ASANA
Internet & Software
www.asana.com
At Asana, we’re building a place where teams align their energies towards common goals. Where there is no work about work. There is only total clarity, energized focus, and frictionless collaboration. Everything from the most immediate details to the big picture are organized and at your fingertips. In every moment, each person knows what they should be doing and why they’re doing it.
ASML
Electronic & Computer Hardware
www.asml.com
ASML is a leading global technology company that invents, designs, manufactures and services the lithography machines that make microchips. There is an 85% chance that the chips in your smart devices, cell phones, computers, and cars are made on our machines. Our vision is to enable affordable microelectronics that improve the quality of life from USB sticks to healthcare equipment to self-driving vehicles. Our guiding principle is continuing making ever smaller, cheaper, more powerful and energy-efficient chips.

ASTRANIS
Aerospace
http://astranis.com
We are taking on one of humanity’s most important challenges. Four billion people do not have access to the internet. Astranis is going to change that. We are building the next generation of smaller, lower-cost telecommunications satellites to bring the world online. Join us and work with top engineers who have flown things in space before. We are a well-funded team that moves fast.

AUSPION, INC.
Electronic & Computer Hardware
www.auspion.com
VC funded startup company bringing to production wireless devices for consumer and commercial applications. We are hiring software engineers, RF and microwave engineers, RF test engineers, and antenna designers as well as IC designers (RF and mixed-signal).

BLOOMBERG
Other Industries
http://careers.bloomberg.com
Bloomberg, the global business and financial information and news leader, gives influential decision makers a critical edge by connecting them to a dynamic network of information, people and ideas. The company’s strength delivering data, news and analytics through innovative technology, quickly and accurately is at the core of the Bloomberg Professional service. Bloomberg’s enterprise solutions build on the company’s core strength, leveraging technology to allow customers to access, integrate, distribute and manage data and information across organizations more efficiently and effectively.

THE BOEING COMPANY
Aerospace
www.boeing.com
Boeing is the world’s largest aerospace company and leading manufacturer of commercial jetliners, defense, space and security systems, and service provider of aftermarket support. Join us, and build something better for yourself, for our customers and for the world. Boeing is an Equal Opportunity Employer. Employment decisions are made without regard to race, color, religion, national origin, gender, sexual orientation, gender identity, age, physical or mental disability, genetic factors, military/veteran status, or other characteristics protected by law.

CISCO MERAKI
Computer Networking
http://meraki.cisco.com
Meraki has grown to become an industry leader in the IT space, with over 230,000 customers and 3 million network devices and counting online around the world. Our Software Engineering, Hardware Engineering, Product Management and Support departments are all comprised of numerous small teams, allowing us to tackle new problems, build new features as quickly as possible, and interface with customers. To learn more and see the impact you could have by joining the team check out the videos here: https://www.youtube.com/watch?v=jNGAAJB9bWE and https://www.youtube.com/watch?v=fQOr5MVBW0E&t=5s

CITADEL LLC
Investment / Portfolio Management
www.citadel.com
Citadel is a leading investor in the world’s financial markets. For over a quarter of a century, we have sought to deliver
industry-leading investment returns to clients including corporate pensions, endowments, foundations, public institutions, and sovereign wealth funds. For more information, visit Citadel.com. Citadel Securities is an award-winning global market maker that helps meet the liquidity needs of asset managers, banks, broker-dealers, hedge funds, government agencies, and public pension programs. For more information, visit CitadelSecurities.com.

CLINICOMP, INTL.
Internet & Software
www.clinicomp.com
CliniComp is a global provider of EHR software and hardware solutions that help easily manage the complete scope of patient care in the most complex, high acuity hospital environments. We are a San Diego based company made up of inspired people that form a team as strong as each of its individuals. We design, develop, and implement cutting-edge technology that contributes to fundamental advancements in computer science. We are looking for self-motivated team players; problem-solvers who thrive in a fast-paced, adaptive environment, and who love innovative technology as much as creating it.

CONSENSYS
Internet & Software
https://consensys.net/
ConsenSys is a venture production studio focused on building and scaling tools and enterprise software products powered by Ethereum. Our mission is to use these solutions to power the emerging economic, social, and political operating systems of the planet. Our teams are busy at work building the future of identity, financial markets, commerce, security and infrastructure, and more. If you are someone that thrives in a fast-paced environment where being self-directed, determined, and resilient are a requirement, we would love for you to join us.

COR MEDICAL VENTURES
Medical Devices
www.cormedicalventures.com
Cor Medical Ventures is a leading medical device development company with an entrepreneurial mindset. We partner with surgeons and inventors to quickly and effectively bring ideas from the need generation and initial concept phase to early clinical use. The team at Cor Medical Ventures provides leadership and know how at all stages of development, leveraging our experience and past successes to rapidly innovate and commercialize medical devices.

THE D. E. SHAW GROUP
Investment / Portfolio Management
www.deshaw.com
Headquartered in New York City, the D. E. Shaw group is a global investment and technology development firm, founded in 1988, with offices around the world. While we’re known as a pioneer in quantitative investing, we also have considerable expertise in areas that involve fundamental analysis or portfolio manager discretion. Our firm has earned an international reputation for successful investing based on innovation, careful risk management, and the quality and depth of our research and staff.

D. E. SHAW RESEARCH
Research
www.deshawresearch.com
D. E. Shaw Research is a New York based independent research laboratory that conducts scientific research in the field of computational biochemistry. Our group is currently focusing primarily on long molecular dynamics (MD) simulations involving proteins and other biological macromolecules of potential interest from both a scientific and a pharmaceutical perspective. An integral part of our effort consists of designing and developing custom hardware and software to carry out this research. We are also pursuing drug discovery programs, leveraging the insights enabled by our novel technologies.
DASSAULT SYSTÈMES
Internet & Software
www.3ds.com
Dassault Systèmes, the 3DEXPERIENCE Company, provides business and people with virtual universes to imagine sustainable innovations. Its world-leading solutions transform the way products are designed, produced, and supported. Dassault Systèmes’ collaborative solutions foster social innovation, expanding possibilities for the virtual world to improve the real world. The group brings value to over 190,000 customers of all sizes, in all industries, in more than 140 countries. For more information, visit www.3ds.com.

DATABRICKS
Internet & Software
www.databricks.com
Databricks’ mission is to accelerate innovation for its customers by unifying Data Science, Engineering, and Business. Founded by the original creators of Apache Spark, Databricks provides a Unified Analytics Platform for data science teams to collaborate with data engineering and lines of business to build data products.

DEEP 6 AI
Healthcare
https://deep6.ai
Deep 6 AI is a fast-growing, venture-backed company focused on using AI to help researchers find patients for clinical trials. We won the Enterprise and Smart Data award at South by Southwest, were named one of the top 100 most disruptive companies in the world, and were selected by former Vice President Joe Biden to discuss patient recruitment in the fight to cure cancer. We’re also seeing amazing interest and traction with major hospitals and health systems, CROs, and sponsors. Founded in 2015, Deep 6 AI is headquartered in Pasadena, CA.

DESCARTES LABS
Internet & Software
www.descarteslabs.com
Descartes Labs is a predictive intelligence company that makes a data-agnostic platform for performing global-scale analyses unbound by computing limitations. We are building the world’s largest and most diverse data refinery—to bring together all of the data, all of the time. Our supercomputer in the cloud and modeling platform for complex global systems, predict supply and demand factors to give our customers a unique decision advantage so they can move with speed, efficiency, and certainty. Descartes Labs is headquartered in Santa Fe, NM, and has offices in New York, and San Francisco.

DICE
Other Industries
www.dice.com
Dice is the leading career site for technology and engineering professionals. We are organizing the world’s talent by providing specialized insights and relevant connections tailored to specific professions and industries. Today, we serve Technology and Engineering. Our approach is different for a reason: You are working to become an expert in your field. To respect your dedication, our sites are built to equip you with the insights and connections to make the most of your career.

EDNOVATE
K-12 Education
www.ednovate.org
Together, we use our college degrees and careers to make a positive multigenerational change. Ednovate is a network of 5 public charter high schools in Southern California. Our unique model of personalized learning, building purpose, and creating deep relationships is setting up 100% of our students for 4-year university acceptance and preparing them for future success.

EDO
Internet & Software
www.edo.com
EDO is a data science software firm that develops analytics tools to make data accessible and actionable for the media and entertainment industry. Currently focused on film and TV, we work with many major movie studios and TV networks to help them forecast, market, and distribute their content more effectively.
Building from this strong base, we are growing into adjacent verticals.

**ENTHought**  
Scientific and Technical Consulting  
https://enthought.com  
Enthought is a leading provider of Python-based data analytics and scientific computing solutions. Our software products, training solutions and consulting services are used by customers worldwide to accelerate innovation in a broad array of industries. Enthought is a highly collaborative, low hierarchy place. People that thrive at Enthought are passionate about life and work, intellectually curious, dedicated to quality work, and friendly. We value “really smart,” “highly productive,” and “dedicated” more heavily than any specific skill set or degree.

**EverBridge, Inc.**  
Internet & Software  
www.everbridge.com  
Everbridge, (NASDAQ: EVBG) is a global software company that provides enterprise software applications that automate and accelerate organizations’ operational response to critical events in order to keep people safe and businesses running faster. During public safety threats such as active shooter situations, terrorist attacks or severe weather conditions, as well as critical business events such as IT outages, cyber-attacks or other incidents such as product recalls or supply-chain interruptions, over 3,800 global customers rely on the company’s SaaS-based Critical Event Management platform.

**Exponent**  
Scientific and Technical Consulting  
www.exponent.com  
Exponent is a leading engineering and scientific consulting firm. Our multidisciplinary team of scientists, engineers, physicians, and regulatory consultants brings together more than 90 different disciplines to solve complicated problems facing corporations, insurers, government entities, associations, and individuals. Our approximately 1,000 staff members work in 26 offices across the United States and abroad. Exponent has over 800 consultants, including more than 500 that have earned a doctorate in their chosen field of specialization.

**ExxonMobil Corporation**  
Oil & Gas  
www.exxonmobil.com  
Every day, employees at ExxonMobil are committed to the pursuit of operational excellence. We do this by delivering safe, reliable operations, improving energy efficiency, and maintaining strong business controls. We believe that maximizing the value of resources—through disciplined investments, developing breakthrough technologies, improving processes, and integrated operations—generates the most benefit for resource owners, society, and our shareholders.

**Facebook**  
Internet & Software  
www.facebook.com/careers/university  
Facebook’s mission is to give people the power to build community and bring the world closer together. Through our family of apps and services, we’re building a different kind of company that connects billions of people around the world, gives them ways to share what matters most to them, and helps bring people closer together. Together, we can help people build stronger communities—we’re just getting started.

**Factual**  
Internet & Software  
www.factual.com  
Factual is the location data company the world’s most valuable brands and technology companies trust to understand and intelligently grow their businesses. We help engineering teams, marketers, and data analysts build the best digital products, deliver more impactful marketing and transform their businesses with the most accurate and comprehensive data on places and people worldwide.
FIRST QUADRANT
Investment / Portfolio Management
http://Firstquadrant.com
First Quadrant is an innovative investment management firm specializing in alternate approaches to global investing. The firm provides investment management services to institutional investors around the globe and manages a range of separate account, commingled funds, and UCTIS funds. Their mission is to positively impact lives through unique investment insight.

FORZA SILICON CORPORATION
Electronic & Computer Hardware
www.forzasilicon.com
Forza Silicon (Pasadena, CA — www.forzasilicon.com) is a privately held, global leader in fabless semiconductor design, specializing in analog/mixed-signal and highly sensitive, advanced CMOS image sensors for visible and infrared digital camera applications. Forza Silicon’s Custom IC Design and Integrated Production Services model offers a complete end-to-end solution from circuit design to the delivery of highly reliable production parts. Application areas include military/defense, biomedical, automotive, mobile phones, digital signage, digital cinematography, industrial, and more.

GEMALTO
Computer Networking
www.gemalto.com
Gemalto is at the heart of our evolving digital society, enabling businesses and governments around the world to offer trusted and convenient digital services to billions of individuals. We work behind the scenes to ensure that each time their customers, employees, and citizens want to transact, connect, or identify themselves, they can do so safely and easily. Whether they’re communicating, banking, doing business online, using eGovernment services, accessing the cloud, or building the internet of things, people everywhere rely on Gemalto every day.

GEO SEMICONDUCTOR
Electronic & Computer Hardware
www.geosemi.com
GEO Semiconductor (GEO), headquartered in San Jose, CA, is an industry leader in delivering programmable camera video processors to the rapidly growing consumer and automotive camera markets. GEO’s products feature unique eWARP® geometric processing technology, image signal processing, and video compression solutions backed by over 100 patents. GEO’s core markets include automotive cameras and head-up displays, consumer cloud / IoT cameras, surveillance cameras, video communication, and video projection.

GINKGO LLC
Investment / Portfolio Management
www.ginkgo-llc.com
Ginkgo is a quantitative trading firm located at Lake Tahoe that focuses on its people and technology.

GOLDMAN SACHS
Investment Banking
www.goldmansachs.com/careers
The Goldman Sachs Group, Inc., is a leading global investment banking, securities and investment management firm that provides a wide range of financial services to a substantial and diversified client base that includes corporations, financial institutions, governments and high-net-worth individuals. Founded in 1869, the firm is headquartered in New York and maintains offices in all major financial centers around the world.

GOOGLE, INC.
Internet & Software
https://careers.google.com/students/
Google is not a conventional company. True, we share attributes with the world’s most successful organizations, but even as we continue to grow, we’re committed to retaining a small-company feel. At Google, we know that every employee is integral to our success. We provide individually tailored compensation packages with competitive salary, bonus, and equity, along with the opportunity to earn further bonuses and rewards. See more at careers.google.com, At Google, we celebrate and thrive on diversity. Google is proud to be an equal opportunity workplace. Find out more at google.com/diversity.
GREEN HILLS SOFTWARE
Computer Networking
www.ghs.com
The world is built with Green Hills Software, from secure cell phones to airliner flight systems. Green Hills Software is the leading provider of software tools and operating systems used to build high-reliability systems that millions depend on daily. When you drive a car, send a message, or board a plane, you rely on our work. Our operating systems never fail and cannot be hacked. Our compilers produce the highest-performance code. With our debugger, programmers solve bugs in minutes that otherwise take weeks. Our hiring process is intense and selective, resulting in elite teams.

GUGGENHEIM PARTNERS
Investment / Portfolio Management
www.guggenheimpartners.com/careers
Guggenheim Partners is a global investment and advisory firm with more than $265 billion in assets under management. Across our three primary businesses of investment management, investment banking, and insurance services, we have a track record of delivering results through innovative solutions. With more than 2,300 professionals based in over 25 offices in six countries, our commitment is to advance the strategic interests of our clients and to deliver long-term results with excellence and integrity.

HI-REZ STUDIOS
Internet & Software
www.hirezstudios.com
Hi-Rez Studios was established in 2005 to create exceptional online interactive entertainment and is now one of the largest video game studios in the Southeast United States. Our talented development team consists of industry-proven concept, character, environment, and technical artists, animators, designers, and programmers. Our games include the squad-based shooter Global Agenda, the critically acclaimed Tribes: Ascend, and SMITE, the Battleground of the Gods.

HONEY SCIENCE CORPORATION
Internet & Software
www.joinhoney.com
We are a consumer-facing tech company based in downtown Los Angeles. We are using the latest technology to create user-friendly shopping tools that save people time and money. We like smart and scrappy creators and inventors who want to use technology to solve problems and like to have impact and influence on the end product. We do not accept the status quo and are always asking why...if you can dream it, you can build it at Honey.

HRL LABORATORIES, LLC
Other Industries
www.hrl.com
HRL Laboratories, LLC, Malibu, CA (www.hrl.com) is a corporate research and development laboratory owned by The Boeing Company and General Motors specializing in research into sensors and materials, information and systems sciences, applied electromagnetics, and microelectronics. HRL provides custom research and development and performs additional R&D contract services for its LLC member companies, the U.S. government, and other commercial companies.

INFOSYS
Internet & Software
www.infosys.com
Infosys is a global leader in technology services and consulting. We enable clients in more than 50 countries to create and execute strategies for their digital transformation. From engineering to application development, knowledge management, and business process management, we help our clients find the right problems to solve, and to solve these effectively. Our team of 200,000+ innovators across the globe is differentiated by the imagination, knowledge, and experience across industries and technologies that we bring to every project we undertake.
INSTITUTE FOR DEFENSE ANALYSES
Defense
https://www.ida.org
IDA (Institute for Defense Analyses)—a not-for-profit corporation headquartered in Alexandria, VA, just outside Washington, DC—operates three Federally Funded Research and Development Centers (FFRDCs) in the public interest: the Systems and Analyses Center, the Science and Technology Policy Institute, and the Center for Communications and Computing. IDA exists to promote national security, preserve the public welfare, and advance scientific learning by analyzing, evaluating, and reporting on matters of interest to the United States government.

INTUITIVE SURGICAL
Medical Devices
www.intuitivesurgical.com
Joining Intuitive Surgical means joining a team dedicated to using technology to benefit patients by improving surgical efficacy and decreasing surgical invasiveness, with patient safety as our highest priority. See more at: https://www.intuitivesurgical.com

IRIS TECHNOLOGY CORPORATION
Aerospace
https://www.iristechnology.com
Iris Technology was founded in 1986 to develop mission-critical components and solutions in collaboration with strategic aerospace and defense industry partners.

iROBOT
Electronic & Computer Hardware
www.irobot.com/About-iRobot/Careers.aspx
We are the leading global consumer robot company, designing and building robots that empower people to do more, both inside and outside of the home. We have sold over 20 million robots and employ more than 600 of the robot industry’s best and brightest. iRobot is committed to fostering invention, discovery and technological exploration in the pursuit of practical and valuable robot products for the home. We have offices in California, United Kingdom, Japan, China and Hong Kong. Our corporate headquarters is located in Bedford, MA. Follow us on Instagram @irobotcareers & #LifeAtiRobot!

IXL LEARNING
K-12 Education
https://www.ixl.com/company/jobs
IXL Learning is a leading educational technology company on a big mission: Delivering an immersive learning experience to all students, in all grades and subjects, in schools and homes worldwide. With one in eight U.S. students already learning on IXL (answering over 50 million questions every day!), IXL inspires educators and learners around the world and is changing how students feel about learning and about themselves.

JOHNSON & JOHNSON FAMILY OF COMPANIES
Healthcare
www.careers.jnj.com
Caring for the world one person at a time has inspired and united the people of Johnson & Johnson for over 130 years. We embrace research and science—bringing innovative ideas, products, and services to advance the health and well-being of people. Thriving on a diverse company culture, celebrating the uniqueness of our employees, and committed to inclusion. Proud to be an equal opportunity employer.

KAIAM CORP.
Telecommunications
www.kaiam.com
Headquartered in Newark, CA, with large-scale manufacturing in Livingston, Scotland, Kaiam is a leading manufacturer of optical transceivers for hyperscale data centers. Founded in 2009 by leading technologists from the optical networking industry, the team has a record of delivering breakthrough products that change the rules of the marketplace. Current products include 100Gb/s LightScale® optical transceivers optimized for data centers and a range of planar lightwave circuits (PLCs). For more information, visit www.kaiam.com and follow on Twitter at: @KaiamCorp.

KENSUO
Internet & Software
https://www.kensho.com
Kensho provides high-tech solutions to top financial institutions. Our 150-employee team
leverages cutting-edge machine learning, artificial intelligence, natural language processing, and data visualization techniques. In April 2018, Kensho was acquired by S&P Global in the biggest AI acquisition on record. Kensho operates independently, and employees benefit from working for an innovative startup while creating impact at a global scale. To apply to Kensho, please visit our Careers page. Kensho embraces diversity in our hiring and practices and is an equal opportunity employer.

**KEURIG DR PEPPER**  
Food & Beverage  
https://www.keurigdrpepper.com  
Keurig Dr Pepper (NYSE: KDP) is a leading coffee and beverage company in North America, with annual revenue in excess of $11 billion. Formed in 2018 with the merger of Keurig Green Mountain and Dr Pepper Snapple Group, we have leadership positions in soft drinks, specialty coffee and tea, water, juice and juice drinks, and mixers, and we market the #1 single serve coffee brewing system in the U.S. We have more than 25,000 employees and more than 120 offices, manufacturing plants, warehouses, and distribution centers.

**KLA-TENCOR**  
Manufacturing - Other  
www.kla-tencor.com/college  
At KLA-Tencor, we research, develop, and manufacture the world’s most advanced inspection and measurement equipment for the semiconductor and nanoelectronics industries. We enable the digital age by pushing the boundaries of technology, creating tools capable of finding defects smaller than a wavelength of visible light. We create smarter processes so that technology leaders can manufacture high-performance chips faster and better. We’re passionate about creating solutions that drive progress and help people do what wouldn’t be possible without us. The future is calling. Will you answer?

**LATCH**  
Electronic & Computer Hardware  
www.latch.com  
Latch is the creator of the world’s first smart access system designed for enterprise users and delivery automation. The company was founded by a team of former Apple employees and has raised more than $26 million in private funding from leading investors and many of the world’s largest real estate companies. Based in New York City, Latch is at the forefront of changing the user experience around access.

**MASIMO**  
Medical Devices  
www.masimo.com  
Masimo, headquartered in Irvine, CA, is a medical technology and device company. We develop innovative, noninvasive monitoring technologies that save, extend and improve the lives of patients worldwide. To learn more about us, please visit: www.masimo.com

**MATHWORKS**  
Internet & Software  
www.mathworks.com  
MathWorks (creators of MATLAB and Simulink) is the leading developer of mathematical computing software. MATLAB®, the language of technical computing, is a programming environment for algorithm development, data analysis, visualization, and numeric computation. Simulink® is a graphical environment for simulation and Model-Based Design of multidomain dynamic and embedded systems. MathWorks is hiring students in computer science and engineering to join internships or full-time our Engineering Development Group.

**MEGGITT PLC**  
Aerospace  
www.meggitt.com  
Headquartered in the UK, Meggitt PLC is a global engineering group specializing in extreme environment components and smart subsystems for aerospace, defense, and energy markets. Meggitt Sensing Systems is seeking key engineers to join our Orange County location. These are high-profile opportunities with tremendous potential for career growth!
MEMVERGE, INC.
Internet & Software
www.memverge.com
MemVerge plans to develop the ZeroIO technology solution, converging the main memory and main storage solutions. This would result in a single pool of non-volatile random access memory (NVRAM) that serves as memory and storage. The ZeroIO technology depends on the dual in-line memory module (DIMM) version of 3D XPoint (provided by Intel).

MESO SCALE DIAGNOSTICS
Biotech & Life Sciences
www.mesoscale.com/careers
Founded in 1995, Meso Scale Diagnostics (MSD) is a global leader in the development, manufacture, and commercialization of innovative assays and instruments for the measurement of molecules in biological samples. MSD’s proprietary MULTI-ARRAY technology enhances medical research and drug development by enabling researchers to profile many biomarkers simultaneously in a single sample without compromising assay performance.

MILLENNIUM SPACE SYSTEMS
Aerospace
www.millennium-space.com
Our hand-picked team creates and delivers affordable, responsive, high-performance satellites. Our CEO interviews every team member. They select for demonstrated experience, knowledge, and passion, seeking candidates who solve problems creatively. Based in El Segundo, CA, just a few miles from LAX, we bring affordable and reliable solutions to the most exacting military, national security, and civil space users. Our customer portfolio includes: NASA, Civil, National Security, Department of Defense, and Commercial Space sponsors.

MIMOSA NETWORKS
Electronic & Computer Hardware
www.mimosa.co
Mimosa Networks is the leader in next-generation, Hybrid Fiber-Wireless fixed access broadband solutions. We are all about designing the next generation of wireless access technology, and we love what we do. Mimosa’s solutions empower service providers to deliver fiber-fast wireless broadband connectivity in suburban, urban, and hard-to-reach rural areas at a fraction of the cost of fiber, driving new industry competition and closing the global connectivity gap. Mimosa is based in Silicon Valley and deployed in over 130 countries worldwide.

MIT LINCOLN LABORATORY
Research
www.ll.mit.edu
At MIT Lincoln Laboratory, diverse teams of technical experts develop innovative solutions with real impact on U.S. national security. If you are an agile thinker, excited by the freedom to develop novel ideas and the opportunity to take concepts to the prototype stage, Lincoln Laboratory offers abundant opportunities and resources.

THE MITRE CORPORATION
Research
www.mitre.org
The MITRE Corporation is a not-for-profit organization chartered to work in the public interest. As a national resource, we apply our expertise in systems engineering, information technology, operational concepts, and enterprise modernization to address our sponsors’ critical needs.

NASA JET PROPULSION LABORATORY
Aerospace
http://jpl.nasa.gov/opportunities/
Join us in our life’s work. Be a part of the next history books. Formed in 1936, NASA Jet Propulsion Laboratory helped open the Space Age by developing America’s first Earth-orbiting science satellite, creating the first successful interplanetary spacecraft, and sending robotic missions to the solar system. Today JPL continues its world-leading innovation, implementing programs in planetary exploration, Earth science, space-based astronomy, and technology development, while applying its capabilities to technical and scientific problems of national significance.
NAVAL RESEARCH ENTERPRISE INTERNSHIP PROGRAM (NREIP)
Defense
http://nreip.asee.org
The Naval Research Enterprise Internship Program’s (NREIP) goal with NREIP is to encourage participating students to pursue science and engineering careers, to further education via mentoring by laboratory personnel and their participation in research, and to make them aware of DoN research and technology efforts, which can lead to employment within the DoN. NREIP provided competitive research internships to approximately 560 college students last summer. Participating students spend ten weeks during the summer conducting research at approximately 38 DoN laboratories.

NAVAL RESEARCH LABORATORY
Defense
www.nrl.navy.mil
The U.S. Naval Research Laboratory offers its civilian employees a challenging and exciting career in the federal government with flexible work schedules, competitive salaries, and world-class research facilities with state-of-the-art equipment. Apply your talents in a creative, hands-on environment, with opportunities for educational and career development. Work with world-renowned scientists and engineers and forge your own path of success further than you can imagine.

NIAGARA BOTTLING, LLC
Food & Beverage
Niagara Bottling, LLC, has been family owned and operated since 1963. We operate the most eco-friendly and highest speed bottling lines in the world. We have expanded our production nationally with plants in 13 states. As the largest manufacturer of private brand bottled water in the country, we work closely with the largest retail organizations in the world as well as an outstanding collection of world class suppliers. Our growth is fueling the search for new team members that can help manage this growth moving forward.

NIANTIC, INC.
Other Industries
https://www.nianticlabs.com/jobs/
Niantic’s mission is to use emerging technology to create experiences in the real world. We build products that inspire outdoor exploration, exercise, and face-to-face social interaction, such as Ingress, an immersive real-world mobile game played by millions of people, Pokémon GO, which has broken world records and been downloaded over 750 million times, and we’ve announced Harry Potter: Wizards Unite, our latest much-anticipated AR game. We’re a hard-working, fun, and exciting group who love what we do, with offices in San Francisco, Los Angeles, Sunnyvale, Seattle, and beyond!

NORTHROP GRUMMAN CORPORATION
Aerospace
www.northropgrumman.com
Northrop Grumman is committed to hiring and retaining a diverse workforce. We are proud to be an Equal Opportunity/Affirmative Action Employer, making decisions without regard to race, color, religion, creed, sex, sexual orientation, gender identity, marital status, national origin, age, veteran status, disability, or any other protected class. U.S. Citizenship is required for most positions. For our complete EEO/AA and Pay Transparency statement, please visit www.northropgrumman.com/EEO.

NURO INC.
Internet & Software
http://nuro.ai
Nuro is a robotics startup whose mission is to accelerate the benefits of robotics for everyday life. Nuro’s first product is a fully autonomous goods-only vehicle which will not only significantly lower the cost of goods transportation but also fundamentally transform our local commerce. Nuro is founded by two former Google self-driving car executives (Jiajun Zhu & Dave Ferguson) and has a fast-growing team of superstars across robotics, AI, engineering, and product management. Nuro is backed by some of the best investors in the world including Greylock and has raised a $92M series A in 2017.
OAK RIDGE INSTITUTE FOR SCIENCE AND EDUCATION
Research
http://orise.orau.gov
The Oak Ridge Institute for Science and Education (ORISE) is a U.S. Department of Energy institute focusing on scientific initiatives to research health risks from occupational hazards, assess environmental cleanup, respond to radiation medical emergencies, and educate the next generation of scientists. ORISE programs include research experiences at Department of Energy national laboratories as well as other federal agencies with research facilities located across the country as well some positions outside the United States.

OMNISCIENCE
Internet & Software
www.omni.sc
Omniscience software solutions are enabled by Omniscience’s unique “brute force” distribution of algorithms to efficiently process high data volumes and understand the inherent combinatorial complexities of the real world.

OPENX TECHNOLOGIES, INC.
Internet & Software
http://openx.com
OpenX creates quality programmatic advertising markets that drive superior monetization for publishers and optimal value for brands. As monetization partners to more than 1,200 publishers worldwide, OpenX has the largest knowledge base of publishers needs and trends. Our robust global technology infrastructure that ensures full reliability for all ad formats across all digital environments.

OPERA SOLUTIONS
Internet & Software
https://www.operasolutions.com
Opera Solutions is a leading AI/ML and advanced analytics software and solutions company. We combine data science, technology, and domain knowledge to enable analytics at scale and speed. We create and manage an enterprise intelligence data layer, which allows our clients to make smarter decisions, serve their customers better, and grow revenues. Opera Solutions has offices in Jersey City, Boston, San Diego, London, New Delhi, Köflach, and Shanghai, and our client list spans across the financial services, healthcare, travel, retail, and telecom industries, as well as key government entities.

ORACLE
Internet & Software
http://oracle.com/campus
Oracle offers a comprehensive and fully integrated stack of cloud applications, platform services, and engineered systems both in the cloud and in the data center. Visit oracle.com for more information.

PIMCO
Investment / Portfolio Management
www.pimco.com/careers
PIMCO is one of the world’s premier fixed income investment managers with more than 2,200 professionals around the world united in a single purpose: Creating opportunities for our clients in every environment. Since 1971, we have brought innovation and expertise to our partnership with the institutions, financial advisors and millions of individual investors who entrust us with their assets. We aspire to cultivate performance and leadership through empowering our people, diversity of thought, and a commitment to an inclusive culture that engages in our global communities.

PUNCHH, INC.
Internet & Software
http://punchh.com
Punchh is the world leader in innovative
digital marketing products for brick and mortar retailers, combining AI and machine learning technologies, mobile-first expertise, and Omni-Channel communications designed to dramatically increase lifetime customer value. Leading global chains in the restaurant, health, and beauty sectors rely on Punchh to grow revenue by building customer relationships at every stage including 100+ different chains representing $12B in annual spend. Our mission is to help brands build personal, lasting, and profitable relationships with their customers.

**PURDUE UNIVERSITY KRANNERT SCHOOL OF MANAGEMENT MBA AND MS PROGRAMS**
Higher Education  
www.krannert.purdue.edu  
Purdue’s Krannert School: Preparing analytical global business leaders. This is the foundation provided in the world-class MBA and Master’s Programs at Krannert. The curriculum inspires critical thinking and essential innovation in any field. Krannert’s student body represents many countries which creates a global network. Faculty focus on experiential learning and graduates attract attention from *Fortune* 500 companies.

**PURE STORAGE**
Internet & Software  
www.purestorage.com  
Our founders created the company with a passion to build storage technology customers love, and deliver it with simplicity and service that fundamentally changes the enterprise storage experience. Founded in 2009, our record revenue growth has landed us among a very select group of companies from global consumer brands, to healthcare, education, and finance.

**QRI INTERNATIONAL, LLC**
Oil & Gas  
www.qrigroup.com  
At QRI, we strive to create value in the upstream oil and gas sector: Increasing reserves, capital efficiency, and production. We use a science-based approach to design processes and metrics that allow us to analyze fields fast and effectively. Combining those fundamental tenets of reservoir management with our Augmented AI and machine learning, we automate complex workflows and provide actionable insights quickly.

**RAKUTEN, INC.**
Internet & Software  
https://www.rakuten.us/  
Rakuten, Inc. is a global leader in internet services that empower individuals, communities, businesses, and society. Founded in Tokyo in 1997 as an online marketplace, Rakuten has expanded to offer services in e-commerce, fintech, digital content, and communications to more than 1 billion members around the world. Since 2012, Rakuten has ranked in the top 30 of *Forbes Magazine*’s annual “World’s Most Innovative Companies” list. The Rakuten Group has over 14,000 employees, and operations in 29 countries and regions across over 70 businesses and services.

**RAMBOLL US CORPORATION**
Scientific and Technical Consulting  
www.ramboll.com/services-and-sectors/environment-and-health  
Ramboll is a leading engineering, design, and consultancy company constantly striving to achieve inspiring and exacting solutions that make a genuine difference to our customers, end-users, and society as a whole. We acknowledge that our solutions depend on the creativity, insight, and integrity of our employees. Therefore, we empower the people within our organization, welcome their individual differences, and enable them to work in multitalented teams to produce inspired solutions. www.ramboll.com

**ROBINHOOD**
Investment / Portfolio Management  
www.robinhood.com  
Robinhood is changing the way America invests. We believe our financial system should work for everyone and not just a few. We offer commission-free trading for stocks, ETFs, options, and cryptocurrencies—all on one, user-friendly platform. Since our public launch in 2015, we’ve enabled millions of people to participate in the markets, cementing us as the fastest-growing brokerage ever.
RUBRIK
Internet & Software
www.rubrik.com
Rubrik is a 4-year-old Palo Alto based startup and is the market leader in Cloud Data Management, the world’s first platform to orchestrate data for hybrid cloud enterprises anytime, anywhere. We blend future-proof architecture with consumer-grade simplicity to pioneer a fresh approach to an old problem. As a newly minted Unicorn we are the fastest growing enterprise company in the billion dollar league. Join us to modernize a $50 billion industry and bring new technology to a space lacking innovation for over a decade.

SAMSUNG SEMICONDUCTOR, INC.
Electronic & Computer Hardware
Headquartered in San Jose, CA, Samsung Semiconductor, Inc., is the second largest semiconductor manufacturer in the world and the industry’s volume and technology leader in DRAM, NAND Flash, SSDs, mobile DRAM, and graphics memory. It is one of the largest providers of system logic, imaging, and LED lighting solutions, as well as providing advanced process design and manufacturing for fabless companies. Samsung Semiconductor, Inc., also has a research and innovation center with numerous labs providing product design and research in: logic, memory, image sensors, displays, and mobile technologies.

SCHLUMBERGER
Oil & Gas
http://careers.slb.com
Schlumberger is the world’s leading supplier of technology, integrated project management, and information solutions to customers working in the oil and gas industry worldwide. Employing more than 115,000 people representing over 140 nationalities and working in approximately 85 countries, Schlumberger provides the industry’s widest range of products and services from exploration through production. Schlumberger recently completed a merger with Cameron combining two complementary technology portfolios into a pore-to-pipeline products and services offering to the global oil and gas industry.

SECOND SPECTRUM
Internet & Software
www.secondspectrum.com
Second Spectrum is the world leader in building machines that understand sports. We leverage this machine understanding to provide a full suite of products and solutions for sports leagues, coaches, front offices, traditional and digital media, and content owners—constantly innovating to create new forms of information, interaction, immersion, and personalization. We are at the forefront of computer vision, machine learning, big data, augmented reality, and product design. Second Spectrum is headquartered in Los Angeles, with offices in Switzerland and China.

SOUTHERN CALIFORNIA EDISON
Utilities and Renewable Energy
www.edisoncollegejobs.com
Today’s Southern California Edison is the product of more than a century of being there to provide reliable electric service, a necessity to modern life and progress, to some of the most dynamic areas of central, coastal and southern California.

SPACEX
Aerospace
www.spacex.com
SpaceX designs, manufactures and launches advanced rockets and spacecraft. The company was founded in 2002 to revolutionize space technology, with the ultimate goal of enabling people to live on other planets.

STREET SIMPLIFIED LLC
Internet & Software
http://streetsimplified.com
Street Simplified is a startup founded by Caltech alums with the goal of making intersections safer and more efficient. We
use computer vision, machine learning, and distributed optimization to help make intersections more efficient.

**SUPPLYFRAME**
Internet & Software
www.supplyframe.com
We’re a technology company on a mission to change the way engineers collaborate, design, and manufacture hardware. Our team is composed largely of Computer Scientists, Web Developers, and Data Scientists, with a passion for crafting beautiful, data-driven User Experiences and love of solving hard problems. And we believe that there are few things in the world that can match the excitement of building tools for fellow engineers and hackers alike. Supplyframe is based in Pasadena, CA, with offices in San Francisco, Austin, Shanghai, and Belgrade.

**TENSYR, INC.**
Internet & Software
www.tensyr.com
Building the future of transportation isn’t easy. It requires a mission-critical system architecture that integrates today’s leading technologies—artificial intelligence, computer perception, robotics, and high-performance computing—all executing with faultless precision on a supercomputer inside a space smaller than your trunk. Does working on hardcore autonomous software systems and devices with world-class customers on a daily basis appeal to you? Want to work on self-driving cars, drones, bots and IoT?

**THEOREM LP**
Investment / Portfolio Management
www.theoremlp.com
Theorem is a company at the intersection of technology and finance. We combine quantitative research, software engineering, and rigorous scientific investigation to build credit portfolios that produce strong and consistent yields across business cycles. We are a small team of fewer than 20 employees with a diversity of ideas and backgrounds applying machine learning, software engineering, and rigorous scientific investigation. Every member of the team has a major impact on the company’s success, and gets to see their contributions working in the real world.

**TOYOTA RACING DEVELOPMENT INC. (TRD)**
Automotive
www.toyotaracing.com
Toyota Racing Development, Inc. (TRD) inspires the hearts and minds of racing fans, Toyota team members and customers and the driving public. We are dedicated to advancing automotive engineering and maximizing racetrack success. We partner with the finest race teams and drivers who share our passion and our actions foster an atmosphere of excellence. In our pursuit of becoming the most respected and premier motor sports engineering organization in the world.

**TWO SIGMA**
Investment Banking
www.twosigma.com
At Two Sigma, we use data science and technology to discover value in markets worldwide. Our community of scientists, technologists, and academics collaborate to solve some of the most challenging economic problems. We don’t just wonder—we create systematic tools and technologies to forecast the future of global markets.

**UBER**
Internet & Software
http://t.uber.com/university
Utbes’s mission is to bring reliable transportation to everywhere, for everyone. We started in 2010 to solve a simple problem: How do you get a ride at the touch of a button? Six years and more than five billion trips later, we’ve started tackling an even greater challenge: Reducing congestion and pollution in our cities by getting more people into fewer cars.

**VECTRA**
Internet & Software
https://vectra.ai/
Vectra® Networks uses artificial intelligence to automate real-time cyber attack detection and response—from network users and IoT devices to data centers and the cloud.
VERSEON
Pharmaceuticals
www.verseon.com
Verseon’s mission is to transform medicine and make a positive impact on global health. To make this vision a reality, we have developed the first computationally driven solution that achieves the molecular modelling accuracy required for rapid and cost-effective drug discovery. Our technology will make it possible to target important diseases of unmet need. Verseon plans to use its platform to establish a diversified discovery pipeline across multiple disease areas. Current drug programs include anticoagulation, diabetic macular edema, hereditary angioedema, and oncology (solid tumors).

WESTERN ASSET MANAGEMENT COMPANY
Investment / Portfolio Management
www.westernasset.com
Western Asset is committed to being the leading fixed-income investment management firm in the world. At the core of our values are Trust, Honesty, Integrity, Diversity, Teamwork, Mutual Respect, and Personal Responsibility. Through the common set of shared values we will enrich the power of our ideas and enhance our commitment to excellence.

THE VOLEON GROUP
Investment / Portfolio Management
www.voleon.com
Voleon is a technology company that applies state-of-the-art machine learning techniques to real-world problems in finance. For more than a decade, we have led our industry and worked at the frontier of applying machine learning to investment management. We have become a multibillion dollar asset manager, and we have ambitious goals for the future.

XENON HEALTH
Healthcare
www.xenonhealth.com
Xenon Health is a physician-led management company that provides comprehensive anesthesia services nationwide. Our goal is to administer customized and efficient care to our patients and assist our client facilities in improving efficiency and patient satisfaction.

WEALTHFRONT, INC.
Internet & Software
www.wealthfront.com
At Wealthfront we have an ambitious vision to optimize and automate all your personal finances. Over the past six years our 200,000+ clients have rewarded us with over $11 billion to manage and we’ve done so without sales people or financial advisors. We need you to help us scale from $11 billion assets under management to trillions of dollars as we embark on our journey to become the first digital financial services company to impact a generation’s interactions with money utilizing software. Come help people secure their goals while disrupting an antiquated industry through automation.

XNOR.AI
Internet & Software
www.xnor.ai
XNOR.ai believes in a world where the power of AI is available in billions of products, for everyone. We help customers and partners add AI functionality to their products, powering a new generation of smart products for existing and new markets while removing the need for wi-fi or the cloud. We call this AI everywhere, for everyone.

YELLOWBRICK DATA, INC.
Electronic & Computer Hardware
https://yellowbrick.com
Yellowbrick Data was founded in 2014 by experts in database and flash memory technologies to simplify data warehousing. We wanted to solve the challenges of high availability, running complex mixed workloads, support for ad-hoc SQL, computing correct answers on any schema, massive scalability and supporting large numbers of concurrent users. Ultimately, we built the Yellowbrick Data Warehouse, that is quick to deploy, easy to expand and simple to manage. And in doing so, we also fundamentally changed the economics of enterprise data warehousing.
YORKE ENGINEERING, LLC
Environmental Services
http://yorkeengr.com/careers/
Yorke Engineering, LLC, has assisted over 600 customers with their air quality and environmental compliance, engineering, and permitting issues. Our philosophy is to efficiently help government and industrial customers with the complex array of environmental rules and regulations issued by the local, state, and federal agencies. From simple permits to complex agency negotiations, from small companies to the largest of California’s organizations, Yorke Engineering has successfully helped solve our clients’ air quality and environmental issues in a cost-effective and efficient manner.

ZESTFINANCE
Commercial Banking & Credit
http://zestfinance.com
ZestFinance, Inc., applies its unique credit-decisioning technology platform—based on data science and machine learning—to help lenders effectively predict credit risk so they can increase revenues, reduce risk and ensure compliance. ZestFinance was founded in 2009 by Douglas Merrill and a team of former Google employees with the mission of making fair and transparent credit available to everyone.

ZIPRECRUITER
Internet & Software
http://ziprecruiter.com/careers
ZipRecruiter is the fastest growing employment marketplace. We have helped over 1 million businesses and 100 million job seekers find their next perfect match through partnerships with the best job boards on the web, curated email alerts, award-winning mobile apps, and the world’s best search algorithm for jobs.

ZOOX
Electronic & Computer Hardware
http://zoox.com
Zoox is a Silicon Valley based robotics company founded by Tim Kentley-Klay and Dr. Jesse Levinson to create autonomous mobility. Operating at the intersection of design, computer science, and electro-mechanical engineering, Zoox is a multidisciplinary team working to imagine and build an advanced mobility experience that will support the future needs of urban mobility for both people and the environment. https://twitter.com/zoox https://www.facebook.com/zooxlife/.
