Winter Career Fair 2013 Company Descriptions

10GEN
New York, New York
www.10gen.com
10gen is the company behind MongoDB, the leading NOSQL database. 10gen leads development, builds community, and provides commercial services for MongoDB. MongoDB is an open source document-oriented database helping tens of thousands of companies quickly and easily deliver, scale, and operate applications.

ADAPTLY
New York, New York
http://adaptly.com/jobs
Adaptly is a startup specializing in online advertising in social media. We act as a convenient one-stop shop for advertisers to serve ads across various social platforms, while also providing backend ad optimization and actionable data-driven insights for clients to help inform their campaigns and measure their impact. We also have a long (relative to our company) history of hiring techers.

ADDEPAR
Mountain View, California
www.addepar.com
Addepar is fixing finance. We’re a team of top technologists building tools and infrastructure in one of the largest and most broken markets in the world. Our early customers manage billions of dollars and we’re supported by some of the most prestigious investors in the world. In addition to building important products to fix finance, we’re focused on building an amazing company.

AEROSPACE CORP.
Los Angeles, California
As an independent, nonprofit corporation operating a federally funded research and development center (FFRDC), The Aerospace Corporation performs objective technical analyses and assessments for a variety of government, civil and commercial customers.

ALLSTON TRADING
Chicago, Illinois
Headquartered in Chicago, Illinois, Allston Trading, LLC is a premier principal trading firm that trades over 40 financial exchanges globally, and in nearly every conceivable product class. We sit at the intersection of financial strategy and high-technology; this requires us to hire the best and brightest and give them the tools and freedom they need to be successful.

ALPHONSO LABS
San Francisco, California
www.pulse.me
Meet Pulse. A beautiful application that makes reading news fun and engaging. Pulse for iPad, iPhone and Android takes your favorite websites and transforms them into a colorful and interactive mosaic. Tap on an article, and you will see a clean and elegant view of the story. Share stories to your favorite social networks and services like Facebook, Twitter, etc.

ANDREESSEN HOROWITZ
Menlo Park, California
www.a16z.com
Andreesen Horowitz is a venture capital firm that provides seed, venture and growth-stage funding to the best new technology companies. Founded by Marc Andreesen and Ben Horowitz, Andreesen Horowitz helps entrepreneurs become successful CEOs and build important and enduring companies. Chicago, Illinois
http://imc-chicago.com
IMC financial markets is one of the world’s leading proprietary trading firms. Founded in the Netherlands in 1989, we are headquartered in Amsterdam with offices in Chicago, Sydney, and Zug. Driven by technology, our algorithmic trading and software development teams work closely together to contribute to our success as a top market maker in the world.

INTEL CORPORATION
Hillsboro, Oregon
www.intel.com/jobs/students
There is more inside at Intel. Come explore all we have to offer.

INTRULLECT
Los Alamitos, California
www.intrullect.com
Intrullect is a new kind of Artificial Intelligence technology based on a new order of Logic that allows its unique networks to connect using a new type of multifractal-like equation to create special channels of communications which naturally emerge as intelligence. We are looking for intelligently creative people. We plan to start the world’s first truly intelligent search engine.

IRIS TECHNOLOGY CORPORATION
Irvine, California
http://iristechnology.com
Founded in 1986, Iris Technology is the premier integrator of reliable tactical power systems for the military. Iris Technology also supports commercial and strategic space operations with electronics and electro-optic system components.
IXIA
Calabasas, California
www.ixiacom.com
Ixia helps network equipment manufacturers, carriers, and enterprises design, implement, and characterize networking devices and needs. By using its award-winning and technology-forward products and services, Ixia helps to develop the technologies that will define data communications and networking in the future. Ixia operates facilities around the globe, with many employment opportunities.

IXL LEARNING
San Mateo, California
www.ixl.com
We are an educational technology company like no other. We develop dramatically innovative products used by millions of learners, from children to adults. Our IXL product is the world’s most popular subscription-based learning site for K-12. Our other products include Quia Web, a “create-your-own” website for teachers, and Quia Books, the leading online platform for world-languages courses.

KECK GRADUATE INSTITUTE OF APPLIED LIFE SCIENCES
Claremont, California
http://aboldnewhybrid.kgi.edu
Keck Graduate Institute (KGI) is a standalone graduate institution that combines applied life sciences, bioengineering, bioethics and business management. KGI offers degree/certificate programs in: Master of Bioscience (MBS), Postdoctoral Professional Masters (PPM), PhD in Applied Life Sciences or Computational Biology, Post-baccalaureate Premedical Certificate, etc.

LAB126
Cupertino, California
www.lab126.com
Lab126 is an inventive research and development company that designs and engineers high-profile, portable, hand-held consumer electronics products. The products which Lab126 designs and engineers are easy-to-use and offer users benefits that are only made possible through tightly integrated digital technologies and wireless connectivity.

LAM RESEARCH
Fremont, California
www.lamrc.com
Lam Research Corporation is a major supplier of wafer fabrication equipment and services to the worldwide semiconductor industry, where we have been advancing semiconductor manufacturing for more than 30 years. Lam’s recent merger with Novellus Systems, Inc. has created a broad portfolio of complementary product capabilities.

LASERFICHE
Long Beach, California
www.laserfiche.com
Since 1987, Laserfiche® has used its Run Smarter® philosophy to create simple and elegant enterprise content management (ECM) solutions. More than 30,000 organizations worldwide—including federal, state and local government agencies and Fortune 1000 companies—use Laserfiche software to streamline document, records and business process management.

LINKEDIN
Mountain View, California
www.linkedin.com
LinkedIn takes your professional network online, giving you access to people, jobs and opportunities like never before. Built upon trusted connections and relationships, LinkedIn has established the world’s largest and most powerful professional network. Currently, more than 160 million professionals are on LinkedIn, including executives from all five hundred of the Fortune 500 companies.

Los Angeles, California
www.ladwp.com
The L.A. Department of Water and Power is the nation’s largest municipally-owned utility, employing over 9,000 people throughout greater Los Angeles and the Owens Valley. LADWP engineers typically work on projects in power generation, power distribution and transmission, information technology, system protection, energy efficiency, alternate power sources, and water distribution/quality/resources.

MALACHIARTS
Los Angeles, California
www.malachiarts.com
Malachiarts is a young and growing technology consultancy based in Los Angeles. From our offices in Koreatown, we coordinate a nationwide group of like-minded hackers that enjoy building custom applications and solving problems in Unix environments.

MEDTRONIC, INC. - DIABETES
Northridge, California
www.medtronic.com
For more than 25 years, Medtronic has been helping people with diabetes manage their glucose levels and live longer, healthier lives. We are committed to ongoing breakthrough developments in leading-edge technology, unrivaled service and support, and uncompromising leadership.

MERAKI
San Francisco, California
www.meraki.com
Meraki is a networking systems start-up located in the hip, sunny Mission District of San Francisco. Our cloud-hosted controller architecture provides centralized management and security through an intuitive web UI. We’re a fun company to work for if you don’t mind free food + beer, flexible hours, Nyan Cat greeting you on the Intranet, and most importantly: a small dev team.

MICROSOFT CORPORATION
Redmond, Washington
At Microsoft, amazing things happen every day. Brilliant, innovative and game-changing technology is why we exist today. Microsoft is a destination for the most forward-thinking minds in the industry. It’s a place for dreamers. The die-hards. The innovators. Amazing people just like you—people who want to be what’s next. Come as you are. Do what you love.

MIT LINCOLN LABORATORY
Lexington, Massachusetts
Lincoln Laboratory’s mission is to apply science and advanced technology to critical problems of national security. A Department of Defense federally funded research and development center, the Laboratory’s emphasis is building prototypes and demonstrating operation systems under live test conditions that meet real-world requirements. Candidates will have the opportunity to engage in research.

MOAT
Manhattan, New York
www.moat.com
Moat is an NYC based Saas company building disruptive and innovative software products for some of the world’s largest brands and premium publishers. Moat was founded by Jonah Goodhart, Noah Goodhart, and Mike Walrath. All three helped found Right Media which sold to Yahoo! in 2007.

MORSE PROJECT INC.
San Francisco, California
Morse Project, Inc. is a technology startup located in downtown San Francisco. We’re working on a range of consumer products which will help to change the way people interact with technology.
MRV OPTICAL COMMUNICATIONS - BOSTON DIVISION, INC.
Chelmsford, Massachusetts
www.mrv.com
The Optical Communications Systems division of MRV Communications is a global provider of Carrier Ethernet, WDM transport and infrastructure management solutions since 1988. MRV products enable the delivery of next-generation optical transport and Carrier Ethernet services over any fiber infrastructure. We hire hardware and software Engineers.

NAVAIR
China Lake, California
www.navair.navy.mil
The Naval Air Systems Command (NAVAIR) serves the nation and the Navy by providing advanced warfare technologies. This team researches, designs, develops and tests aeronautical and aeronautical-related systems. NAVAIR’s products include state-of-the-art sensors, aircraft, weapons, training, launch and recovery equipment and communications technologies.

http://openx.org
If you’re interested in working for a dynamic, fast-growing Internet company with a world-class leadership team backed by the industry’s preeminent venture capitalists, OpenX may be the place for you. We’re focused on disrupting the online advertising market on behalf of publishers around the globe and have become one of the leading providers of digital advertising technology.
ORACLE
Redwood Shores, California
www.oracle.com
Oracle provides the world's most complete, open, and integrated business software and hardware systems. With more than 370,000 customers in over 145 countries around the globe, Oracle technology can be found in nearly every industry. They use the most advanced technology to design Oracle's strategic software and hardware solutions.

OSISOFT
San Leandro, California
www.osisoft.com
OSIsoft (www.osisoft.com) delivers the PI System, the industry standard in enterprise infrastructure, for management of time series data and events. OSIsoft has a global base of more than 14,000 installations across manufacturing, energy, utilities, life sciences, data centers and process industries. At OSIsoft, we value education, training, diversity and sharing ideas. We are passionate about our work and want to share that passion with you.

PALANTIR TECHNOLOGIES
Palo Alto, California
www.palantir.com
Palantir is inspired by a simple idea—that with the right technology and enough data, people can still solve hard problems and change the world for the better. For organizations addressing many of today's most critical challenges, the necessary information is already out there, waiting to be understood. We build technology that allows people to make sense of this data to help their missions succeed.

PIVOTAL LABS
San Francisco, California
www.pivotallabs.com
For over twenty years, Pivotal Labs has been at the forefront of software development, developing new approaches and defining industry best practices. Pivotal was one of the first companies to recognize the importance of and develop technical expertise in technologies like Java, Ruby, Rails, and modern smartphone platforms.

PRAEDICAT, INC.
Culver City, California
www.praedicat.com
Praedicat is a startup improving the management of liability catastrophe risk. Liability cat events have led to billions of dollars of loss and millions of injuries and deaths. Praedicat is writing software to process, aggregate and model big data so insurers can choose and manage risks rather than be surprised by them. We seek to use the market to make the world cleaner, healthier, and safer.

QUORA
Palo Alto, California
www.quora.com
Quora connects you to everything you want to know about. Quora aims to be the easiest place to write new content and share content from the web. We organize people and their interests so you can find, collect and share the information most valuable to you.

ROCKMELT
Mountain View, California
www.rockmelt.com
Founded by Eric Vishria (CEO) and Tim Howes (CTO) based on the observation that the way we all use the web has changed dramatically while web browsers have not, Rockmelt is re-imagining what browsing the web should be: mobile, visual, social, and personalized. We just released our first mobile version, Rockmelt for iPad, to rave reviews.

SCHLUMBERGER
Sugar Land, Texas
www.slb.com
Schlumberger Limited (NYSE:SLB) is the leading oilfield services company for customers working in the international oil and gas industry. We are committed to excellence in technical innovation, teamwork and creating value for our customers, our shareholders and our employees.
SCOT FORGE COMPANY
Spring Grove, Illinois
www.scotforge.com
Scot Forge is a 100% employee-owned manufacturer of custom open die and rolled ring forgings. Started as a small hammer shop in Chicago, IL in 1893, Scot Forge has over 100 years of experience, leading the industry as one of the most modern and respected forging companies in the world. Operating with over 1,000,000 square feet of manufacturing space in five plants.

SIFT SCIENCE
San Francisco, California
www.siftscience.com
Sift Science helps sites protect themselves from malicious users, such as fraudsters, spammers, or scammers, by using machine learning to predict when a user will result in a ban or chargeback. Sift Science is a tight-knit team of hackers with a passion for data. The team includes four ex-Google tech leads, two former CTOs, and two PhDs.

SONY NETWORK ENTERTAINMENT
San Diego, California
www.sony.com/SCA/jobs.shtml
Sony Network Entertainment International LLC (SNEI), a subsidiary of Sony Corporation of America, is the premier provider of digital entertainment. SNEI offers the latest and highest quality music, video, and game content through Sony Entertainment Network as well as PlayStation Network while also delivering third-party services.

WINTON CAPITAL
Hong Kong, Non-U.S.
www.wintoncapital.com
Winton was established in 1997 by physicist and investment manager David Harding. The company is research-led, using financial mathematics, scientific research and analysis techniques to develop proprietary systematic trading systems for the international asset markets. We are currently looking to recruit for researchers to be based in Hong Kong.

We create an optimized social video presence for brands on YouTube. We can make any video go viral, build an engaged subscriber base with our comprehensive channel management strategy, and leverage social influencers to drive organic traffic to videos. We focus on finding a video’s ideal audience and increasing engaged viewers, subscribers, fans, and followers to develop owned media over time.
